The Quayle action dated 7/12/2004 is hereby withdrawn and a new non-final action addresses claims 1-14, and 16-21.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Hirschmann. As shown in figures 1 and 2, Hirschmann discloses a main frame (1) having a stop (the width of the main frame allows restricted movement at the point opposite from that of the spring), a back bracket (3) pivotally mounted (6) to the main frame (1) and having an arm extending therefrom (the portion forward/left of pivot point (6)) and a rounded nose (the end portion at the forward-most point of pivot point (6)) which limits the movement, a seat (2) mounted to the main frame and having an arm (10) and restricted movement via slot (8), and a compression spring (5) such that the seat is mounted to the main frame (1) pivot so as to be tiltable forward and rearwardly regardless of a tilt of the back bracket (column 3, lines 20-37 and lines 40-60).

Claims 2-10, 12, and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 14, and 16-21 are allowable.
